Item # BE-125, Fiberglass bell shell, 32"h, 40" diameter

Fiberglass bell shell, 32"h, 40" diameter

Optional imitation clappers, custom mounting "drop tubes", and imitation swinging yokes and frames are available for all bell shells

All Elderhorst Bells, Inc. bell shells are made of high quality hand formed fiberglass with a finished thickness of 1/8" to 5/16". Bell shells are finished with a bronze/gold automotive type finish (other colors available upon request- contact Elderhorst Bells, Inc.) Bell shells to have the exterior contour, size, and shape of a Flemish Cast Bronze Bell normally furnished by the bellfounder for such size bell. A heavy round plate is to be furnished inside the top of each bell shell to provide for a solid mounting to the suspension beam or plate, normally provided by others. (SPECIFICATIONS SUBJECT TO CHANGE)

Elderhorst Bells, Inc. can provide a custom mounting drop tube, or simulated swinging bell headstock or complete bell mountings dependent on what is required by the installation. Contact Elderhorst Bells, Inc. for details.
